## Capabilities Statement

---

Conner Industries, Inc. is a leading provider of industrial wood and protective transportation packaging solutions. We offer industrial lumber, custom pallets, crates, and integrated packaging solutions utilizing a wide variety of materials, including wood, corrugate, plastics, and a wide variety of custom cut foam products to reduce in-transit damage, optimize supply chains, and reduce the total cost of packaging. We serve enterprise customers nationwide from multiple plant locations.

Founded in 1981, Conner Industries, Inc. specializes in a wide variety of transportation and protective packaging. Utilizing combinations of wood, plastic, foam, and corrugate, we custom design and build packaging to keep products protected during transit and ensure their safe arrival for large A&D manufacturers, DoD, and contractors. With custom cut foam capabilities, consistent on-time delivery, and a wide variety of products available, Conner is the vendor of choice for custom packaging solutions nationwide.

To provide customized and innovative packaging and lumber solutions that our customers can count on. We achieve our mission by meeting or exceeding the expectations of our customers through superior customer service, acting with integrity, a passion for innovation, and the continuous pursuit of excellence.

## Core Competencies

---

- Integrated Packaging (wood, plastic, corrugate, foam combinations)
- MIL SPEC Crating
- Mil- STD and FAA Compliant Aircraft Fuel Tank Foam
- Custom Cut Foam
- Custom Fabricated Corrugate
- Wood Pallets and Crates
- Custom Cut Lumber
- Industrial Grade Lumber

## Differentiators

---

With over 40 years in the protective packaging industry, our consistent on-time delivery, reliability, and customer service is unmatched. Our manufacturing facilities retain redundancy and backup service locations, should an emergency arise. Conner Industries, Inc. boasts educated and knowledgeable salespeople, subject matter experts, an experienced design team, and packaging engineers on staff to ensure customers achieve reductions in the total cost of protective packaging and minimal in-transit damages.
